This volume contains abstracts accepted for presentation at the International Research Conference *Service-Learning for Ukraine's Recovery: Education, Citizenship, and Community Resilience*, organised within the Erasmus+ CBHE project *Service-Learning in Higher Education for Ukraine's Recovery (ServU)*.

The conference brings together scholars, educators, practitioners, and community partners working at the intersection of service-learning, higher education, civic engagement, and recovery. It provides a platform for presenting research findings, sharing practice-based evidence, and advancing institutional and policy-oriented approaches to service-learning in wartime and post-war contexts.

The submissions included in this volume were reviewed by the Conference Scientific Committee and selected based on their academic quality, relevance to the conference themes, and contribution to the development of service-learning in Ukraine and the broader European Higher Education Area.

Co-funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.
